Dimensions

Length	Width	Depth	Max. Rod Diam.
155	50	55	M12

This hanger has been designed to aid the contractor with a quick and easy installation of suspended acoustic ceilings using a metal grid system and plasterboard. The elements are identical to the standard HD hanger.

Installation

- 1) Suspend hangers from soffit with threaded drop rods and self locking nuts.
- 2) Level hangers using rotating laser.
- 3) Rotate primary channels into the hanger bracket and fix with sheet metal screws as necessary through the hole provided.
- 4) Clip the secondary (top hat) sections to the primary channels.
- 5) Install plasterboard in the normal way.
